SPRING

PARTS/SERVICE CATALOG

**LEADING THE WAY IN A THRIVING
AGRICULTURAL COMMUNITY!**

SSGA & YOUNG'S

Between now and December 31st, 2024 active Members of the SSGA will receive a **\$1,250 Young's Equipment Gift Card** for Parts and/or Service at any Young's Equipment location with the purchase of any of the following new units:

- Case IH MFD Loader Tractor (60-185 HP)
- Case IH RB565 Round Baler
- NDE Vertical Mixer
- Highline *NEW* BP60 series Bale Pro®

In addition to that, **we will donate \$250 per unit sold** to the Saskatchewan Stock Growers Association to support their formidable cause.

CUSTOMER AND COMMUNITY SERVICES

Young's has a commitment to providing excellence in customer service and actively supports the customers and communities we serve through several initiatives.

Rotor Barbeques

Young's has combine rotors which have been converted into propane BBQs. They are available free of charge for use at your function! BBQ is easily transported with a 2" hitch ball. Call your closest Young's branch to reserve one for your event.

Parts Transfer Trucks

Young's Equipment has two Transfer trucks that run Northern and Southern routes which begin at our head office in Regina at 7am everyday throughout the growing season. This allows Young's part staff to draw from the inventory of all nine stores. Most parts will arrive within 1 day of ordering. Drivers are able to drop off at set locations along the route if requested. Contact your local Young's Equipment store for more details.

NO FREIGHT CHARGES ON TRANSFERS

MY YOUNG'S EQUIPMENT

We are proud to be able to introduce the **MyYoungsEquipment customer portal** to you, the around-the-clock access to your account and equipment information. MyYoungsEquipment is a web-based tool that provides real value at no cost to you and your operation. Your MyYoungsEquipment access gives you a sleek, modern and easy to use interface with a secure environment. All of your information with Young's Equipment is at your fingertips and editable anytime.

In the **"My Equipment"** section we store valuable information about your machines. Information that is shared with only our staff and can be updated by you or us anytime. If you acquire a new treasure you can easily add it to your MyYoungsEquipment profile or if you no longer own it, remove it, which makes your conversation with us much easier when it comes to service for your machine and the processes more fluent.

Not only does the **"Parts"** section of MyYoungsEquipment allow you to order parts directly from your preferred Young's Equipment location, but you can even save shopping lists and order them for reoccurring purchases whenever you need the parts without having to memorize part numbers or to look them up all over again. For the machines in your shed a filter list in MyYoungsEquipment is a must-have tool that saves time and hassle. But of course your MyYoungsEquipment access gives you the opportunity to directly look up parts as well. Currently the portal links directly to CaseIH, Bourgault and Seedhawk/Vaderstad parts books and we are constantly working on adding more vendors to that list.

In the **"My Account"** section you will find all past and current parts invoices as well as a handy Tax Summary. You can select, download or email any invoice or statement you're interested in. If someone misplaces an invoice, no more wait time until we send it to you, it's now available anytime for you. Last but not least, you can contact any department you'd like to communicate with at any given time, even long past opening hours by clicking on the envelope in the top right corner.

MyYoungsEquipment is completely free for you, to take advantage of all the perks it offers. Simply visit **www.youngs.ca** and click on **"Sign Up"** on the very top of our homepage. Once you have signed up you will find **"My Young's Equipment account"** in the top right corner of our homepage at www.youngs.ca. That is your permanent access point to your MyYoungsEquipment portal.

GREASE GUN ACCESSORIES

LOCKN LUBE

Save time. Save grease. Save Money.

LOCKNLUBE GREASE GUN COUPLER

- Locks on, does not leak. Rated up to 10,000 PSI
- 1/8" NPT compatible with all grease guns - battery, pneumatic, manual
- Grease goes in, not on, the machine
- Works on all Zerk fittings, SAE and metric
- World's original locking grease coupler and the only rebuildable grease coupler.
- Easily releases from clogged grease fittings, even under pressure. Comes with Rebuild kit to easily replace seals and jaws without replacing coupler.

LockNLube Grease Gun Coupler # GC81011 - \$ 42.53

LockNLube Grease Gun Coupler XL # GC81042 - \$ 39.99

AIR CHUCK

Depress the thumb lever and push onto the tire valve.
Release the lever to secure the air chuck and create a leak-free connection.

FEATURES

- Durable, spring-loaded TPU seal
- Fits all standard Schrader valves (VG8/8V1 valve threads)
- Heavy-duty construction for strength and durability, resists corrosion

SUITABLE FOR USE ON

- Garage and industrial air hose systems
- Auto and manual tire inflators
- Portable pressure gauges
- Constant pressure systems

HARDENED STEEL COLLET

- Fits all standard Schrader valves (VG8/8V1 valve threads)

SLIDING SLEEVE

- Securely locks the air chuck onto the Schrader valve.

CASE IH AFS ACCUSYNC

AFS AccuSync

Work smarter, not harder, by connecting multiple machines in a field. With AFS AccuSync, you can ensure operators are working together efficiently by sharing coverage maps and A/B guidance lines for all seasons of use. With AFS AccuSync, you can:

- Enable section control based on operation coverage at the field level
- Gather more accurate data on tillage, planting, seeding, nutrient application, spraying and harvest
- Ensure parallel passes by all equipment
- Provide accurate yield maps where less-than-full swath is used
- Avoid skips and control overlaps
- Save money on costly inputs – Automatically prevent overseeding in previously planted areas.

Display Compatibility:

Pro 1200 to Pro 1200

Pro 700 to Pro 700

Pro 700 to Pro 1200

Talk to your local YOUNG'S EQUIPMENT about hardware and subscriptions needed for AFS AccuSync. An AFS Connect account is needed.

KEEP TRACK OF YOUR OPERATION FROM ANYWHERE WITH THE AFS CONNECT™ FARM APP.

USE THE AFS CONNECT FARM APP TO ACCESS THE FOLLOWING FEATURES:

- View the location and status of connected Case IH equipment, allowing you to **keep your operation running more efficiently**
- Share directions to fields and equipment to **coordinate refueling, seed tendering, and maintenance**
- **Log scouting records to track and share in-field findings** with others in your operation
- **View field data and share reports** directly from the app - keeping everyone you need in the know
- **Receive push notifications** and review machine history and status

SCAN THE QR CODE TO DOWNLOAD:

1. Open the camera app on your cellular device.
2. Hover 2-3 seconds over the QR Code.
3. Download the AFS Connect Farm app and log-in with using your My.CaseIH.com Account.

CASE IH

Seed Hawk – Unparalleled accuracy

The heart of the Seed Hawk Air Drill is the individually mounted opener assemblies. Each independent dual-knife opener and packer assembly delivers unparalleled accuracy in all soil conditions. The result is an excellent quality crop with maximum yield potential.

Learn how your farmland can reach its full potential at vaderstad.com/ca-en

Precision Openers

Seed Hawk's industry-leading opener assemblies operate independently for superior shallow seeding, depth accuracy, and optimal fertilizer placement. The result is quick, uniform germination, even packing, and consistent performance in all soil conditions.

Each opener assembly follows the ground independently by pivoting at the frame, controlled by its own adjustable hydraulic cylinder. A range of seed and fertilizer knives are available to suit every seeding style.

Big machines that follow the contour

Seed Hawk Air Drills come in 5 or 7-plex frame sections, allowing them to follow the contours of the land. With a contour following range of 18" (46 cm), the independent opener assemblies deliver consistent seed depth regardless of the terrain.

Wireless blockage monitoring

Product leaving the manifold bounces off a stainless-steel membrane as it enters the seed or fertilizer run, creating a small sound wave. If there is any change in the sound wave, if a blockage is detected, the wireless blockage system immediately delivers quick, accurate notification of the exact location to your iCon wireless control system. When a blockage location is identified, you can take your tablet out of the tractor cab and carry it with you as you locate the blockage and fix the issue. No more misses!

Full control by 10 foot sections

Crop inputs are a substantial investment on every farm. Maximize the return on your investment by using Väderstad's precision farming technology to focus the product where it needs at the exact moment.

In the field, the Fenix III meters on the Precision Delivery Air Cart work seamlessly with the Seed Hawk Air Drill to allow full control of the output on each 10 foot section of the machine.

VÄDERSTAD

DEVLOO ROTO SCRAPERS

Why Devloo Roto Mud Scrapers are right for you

Correct and consistent seed and fertilizer placement is instrumental to getting the most production you can out of your fields. Devloo Roto Mud Scrapers ensure your packer wheels remain clean when it counts most.

Devloo's rotating, cup-shaped scrapers provide five-times more cutting edge than stationary scrapers and rotate when wet soil begins to collect on packer tires, slicing the mud off of the packer tires while decreasing the wear on your equipment.

Work in wetter soil moisture conditions

Clean packer tires ensure your equipment is dropping the seed at a depth most conducive to proper germination and development even on moist ground. Seed earlier for a longer growing season and worry less about moisture levels. You can return to the fields sooner after periods of rain. When dry, the scraper simply sits idle and out of the way just above the packer tires.

Save on inputs and decrease wear on your equipment

Proper seed and fertilizer placement alone can save producers thousands of dollars. When placed at the same, consistent depth, more seed will germinate on each pass, ultimately decreasing your seed-per-acre ratio while fertilizer reaches a depth that will benefit the plant rather than gassing off. Pulling equipment free of mud, straw and other debris requires less power and saves on your tractor's fuel consumption. Devloo Roto Mud Scrapers are built to last, both in material and operation. The scrapers are laser cut from 1023 carbon steel and powder coated for a durable finish.

Easy installation on seeders

Devloo Roto Mud Scrapers can be installed with relative ease via custom brackets that fit more than a dozen brands of seeders. Some of these include Morris, Seed Hawk, Seed Master, Bourgault, New Holland Versatile, Amity, Salford, Ezee-on, John Deere, Pillar, Flexicoil, K-Hart and more.

Supporting The **Fighters**, Admiring The **Survivors**, Honoring The **Taken**, and Never, Ever Giving Up **HOPE**. For every pink scraper sold, \$5.00 is donated!

BOURGAULT METERING

THE LATEST GENERATION
IN PRECISION METERING

The PDM Pro provides a high degree of metering accuracy and gentle seed handling while minimizing the issue of product sticking when dealing with treated products.

THE MODEL YEAR 2025

BOURGAULT

SIGNATURE EDITION

SEED WITH ELEGANCE

To honor our milestone of 50 years at Bourgault, we are pleased to introduce a limited production build of our “Signature Edition” products! The Signature Edition 9000 I Series Carts, ParaLink Hoe Drills and Coulter Drills proudly display our President’s signature and are available for order for Spring 2025 use.

The air cart tanks will be painted matte black and the drills will have black wheels and black opener & MRB cylinders. Both will feature gold decals as well as Signature Edition marking and our President’s signature.

www.bourgault.com

100% BPA FREE | 100% LEAD FREE | 100% RECYCLED | 100% DURABLE | 100% SAFE

KAILANI DRINKWARE

Introducing high-quality, vacuum insulated, double-wall stainless steel and dishwasher-safe drinkware line. Whether you're on the go, working from your home, office, or chilling around a campfire, you can count on KAILANI drinkware to keep your coffee hotter, longer, and ice in your drinks until the last sip. Designed in two popular sizes that utilize the same custom One-Lid™ – so you never have to dig through drawers to find the “one that fits”.

KAILANI COOLERS

We are proud to offer the best value for premium insulated coolers on the market. A combination of insulation performance, freezer-quality sealing gasket, durability and rotomolded construction positions KAILANI coolers as an industry leader.

In addition to our line of hard coolers, we are excited to introduce our more portable, lighter, full line of soft coolers at unprecedented value and performance.

KAILANI[®]
KAILANISPORTS.COM

KAILANI is Canada's Fastest Growing Outdoor Lifestyle Brand. We manufacture premium hard and soft coolers, drinkware, stand-up paddle boards and accessories. Our mission is to build lasting, high-quality, value-oriented products that elevate your outdoor lifestyle experience.

Tigerlights specializes in led lights for agricultural and industrial equipment. The Lights come with a custom bracket and wiring harness for a direct fits for hundreds of different applications. Tiger lights also supply conversion kits (plug and play) with little to no modification needed. Inventory availability increasing with new applications being developed daily!

**Lights available for all manufactures.

PATRIOT® 50 SERIES SPRAYER

AN ICONIC MACHINE REDESIGNED FROM THE GROUND UP

For decades, the Case IH Patriot sprayer has put every drop of product exactly where you want it. But on today's operations, it takes more than timely, accurate spraying to deliver next level productivity. You need complete vehicle control, a cab with built-in luxury, remote management capabilities and even more precise spraying technology. The all-new Patriot 50 series sprayer delivers all that plus a bold, new style that embodies everything you expect from Case IH. Welcome to the future of product application.

20 LITER SPOUT

ASPEN1994 - \$ 11.85

Mosquito Barrier is a three pronged attack:

(1) It kills the adult mosquitoes. (2) The garlic coated plants keep mosquitoes out of the area. (3) It suffocates any mosquito larvae in standing water, under decks, or depressions in lawn.

If there is NO STANDING WATER: Mix 4 Oz of Mosquito Barrier into 1 Gal of water. Stir well and spray an hour before sundown.

If there is STANDING WATER - add canola oil to the mixture: For each gallon of water, add 4 ounces of Mosquito Barrier plus 2 ounces of Canola Oil and 1 TSP of liquid dish soap (non- scented) and spray before sundown.

MB-1L - STARTING AT \$ 42.95

CONVENIENT SOLUTIONS

CLEANFIX[®]

Proven in the dustiest, dirtiest working conditions throughout the world, Cleanfix reversible fans provide the most efficient diesel engine cooling and radiator cleaning available.

Efficient Cooling

Cleanfix reversible fans are geared to the cooling requirements of your machine. This reduces the fan's power consumption.

Convenient Reversing

During operation at full speed, you activate reversal of the fan blades to the blow-out setting at the touch of a button.

Effective Cleaning

Thanks to the optimal orientation of the blade profile, you benefit from strong cleaning air flow and cleaning pressure. Only this technology effectively cleans your radiator.

PipeDrain

PipeDrain makes draining hub oil out of your Quadtrac faster, easier and much less messy. PipeDrain is fully adjustable and fits all CaseIH tracks.

PIPEDRAIN - \$ 399.99

Hose Saddle

Lend-A-Hand

Keep hoses and wires out of drawbar and PTO during operation. To be stored away neatly when not in use. Designed especially for CNH 4WD and Quadtrac tractors.

MEGA TOTE FUNNEL DRAIN OIL COLLECTION SYSTEM

The Tote-Top Mega Funnel is a giant funnel that sits on top of your IBC tote and allows you to quickly & easily pour fluid into your existing tote. It also allows you to leave all your supplies on top such as your pails, drain pan & filters so they can drip dry while the fluid is then funneled back into the tote. Made of HDPE, weighs only 30 lbs, and fits 48" x 40" totes.

- Simply sits on top of tote and holds oil pans, funnels, filters, etc., so that oil can drain off into tote without a mess on the floor.
- Durable plastic design with metal screen on top & large center hole for oil to drain.

#TOTEFUNNEL - \$ 349.95

NEW STEIGER® 715 **POWER WITH PURPOSE**

With an impressive 778 peak horsepower, the Steiger 715 helps you tackle the toughest tasks while reducing fuel inefficiencies, giving you greater fuel economy and reliability all season long. Put more power to the ground thanks to its heavy-duty Quadtrac undercarriage, offering increased traction and tire flotation while still providing the nimble, maneuverable experience you've come to expect from Steiger series tractors. Integrated AFS AccuTurn and AFS AccuSync capabilities further increase your mobility, giving you hands-free steering, automatic turns and real-time data management from the comfort of your cab. Engineers took a look at where you spend your time, the cab, and designed a workspace that's designed for work. New styling gives the new AFS Connect Steiger tractors a refined look, enhanced lighting and improved visibility. So, the next time you're out in the field, ask yourself: "Why would I settle for anything less than a Steiger?"

To learn more, contact your local Young's Equipment dealer.

CASE IH

EVERY DROP COUNTS.

THE PATRIOT® 50 SERIES SPRAYER

Why do we build sprayers that put every drop of product exactly where you want it? Because of the all-nighters you pull. That extra data you wade through. The few more bushels you add every year. Because you sweat the details. So we do the same. Enhanced LED lights for wider visibility. Ergonomic cab design for all-day comfort. And even more precise spraying technology. Because just like you, we know every drop counts.

To learn more, contact your local Young's Equipment dealer.

CASE IH

turbo® II Precleaner

For the toughest environments, day in and day out.

turbo® II performs its job in the toughest environments day in and day out. The unique design is all about preventing micro-abrasive dust from entering the machine's engine creating cleaner air to prolong the engine life. turbo® II is the industry standard precleaner by which all precleaners are judged.

From its durable metal construction to its high efficiency and low restriction across the entire range, turbo® II is chosen worldwide by equipment operators for installation on loaders, graders, crushers, haulers, mixers, and mining machines. Anywhere a high level of protection is needed and where dust is an issue, the turbo® II is a must.

turbo® Power Ram™

The premier directional flow engine precleaner.

A rugged, heavy duty precleaner for a wide variety of applications where directional flow is desired. The Power Ram™ pre-cleaner covers the broadest flow range with excellent efficiency and low restriction. It's on a variety of machines including construction, mining and on-road applications, this precleaner utilizes RAM effect to achieve high pre-separation efficiency, extending the life of your primary air filter and saving you money and limiting down time.

Some applications require Y-Pipe for Power Rams mounted side-by-side.

Precision Delivery Air Carts – Smart, flexible

To bring the highest level of technology and precision to your farm, Väderstad has developed the Precision Delivery line of air carts.

With a wide range of innovative features like Acres to Empty, In-field Calibration, and Fit to Field, the iCon Wireless Control system provides you with more detailed real-time information, more automation, more customizable data, and optimized prescription mapping.

Learn how your farmland can reach its full potential at vaderstad.com/ca-en

Fill systems

The simple design of the Precision Delivery Air Carts allows you to spend less time in the yard and more time in the field. Easy to fill, easy to adjust and easy to clean out. Optional fill systems include conveyors, augers, bag lifts, and fill chutes.

Precision Delivery Air Carts

Individual bin load cells

Stopping to guess how much product you have left in the tank is a thing of the past. The modular tank design of Precision Delivery Air Carts features individual compartment load cells.

The load cells weigh each bin separately and provide real-time verification of remaining product. The iCon Wireless Control software uses the innovative Acres to Empty feature to calculate how many acres it will cover. This ensures more efficient filling times and allows you to pinpoint your required fill volume.

iCon wireless control system

The iPad-based iCon wireless control system delivers complete and easy wireless control of your Precision Delivery Air Cart and Seed Hawk Air Drill, even when you are not in the cab.

VÄDERSTAD

TO FIT VÄDERSTAD (SEED HAWK)

Our farmers asked and we answered with 6 new openers designed specifically to fit Vaderstad Seed Hawk. 5 new offerings to accommodate drills that are set up with inline shanks and a new seed tip to fit your OEM 3 piece offset opener. Our testing has shown these openers to disturb less soil and last longer with more carbide than OEM. If you want to take your seed and fertilizer placement to the next level, contact your Dutch Agriculture Territory Manager and schedule an on farm visit today.

ULD SERIES

TO FIT BOURGAULT PARALINK

The Ultra Low Disturbance (ULD) opener was designed by working with producers to create an opener that allows them to both travel faster in the field, and reduce soil throw all while maintaining accurate seed placement. Producers were asking for a product that ensures versatility and durability at the same time offering less soil disturbance. The result is an opener that captures all of that. Our testing has shown seeding speeds increased 20% over what the producers were previously using.

With producers always looking for ways to increase efficiencies during the seeding season, this is a true game changer.

TWO Great Ways to Feed Cows!

by Highline Manufacturing - A Division of Bourgault Industries Ltd.

AMX850T Towed Feed Mixer - Highline® Manufacturing is focused on ensuring the equipment we offer is part of a complete solution to feeding livestock in the most efficient and effective way possible.

The AccuMix™ AMX850T towed feed mixer is another tool in our lineup that is simple, reliable and cost effective.

BP 660 BALE PRO® - With many new enhancements this is a great option for cattle operations looking for a durable, well-engineered bale processor. The BP 660 Bale Pro® has a dual feed roller processing chamber with a centrally driven flail drum processor. Expand your BP 660 by adding a Feed Chopper™ and Grain Tank.

FARMS THAT GET AHEAD LEAVE NOTHING BEHIND.

BUSHEL PLUS HELPS YOU GET MORE GRAIN IN THE BIN.

MAD Concaves™

are innovative bar-and-grate style concaves that increase your harvest capacity, speed and efficiency. Each is designed to be durable and aggressive with larger grate openings customized to each crop, reducing dockage and rotor loss, improving your crop quality and helping you save fuel.

The split-frame MAD Concaves for Case IH 88 Series combines give you even greater control, flexibility and harvest efficiency. Their modular frames are installed permanently while smaller, lighter concave inserts are quickly slid in and switched using two simple bolts. Thanks to this innovative design, you or any farm operator can easily change concave configurations in minutes, getting the most out of each crop without spending hours on installing a new concave and recalibrating the combine.

Find out how we can help you get ahead at BushelPlus.com or talk to your nearest Young's Equipment dealer.

SmartPan System™

You can only harvest a crop once. Without checking and calibrating loss sensors, there's no way to know how much hard work is being lost. This is **critical for combine-automation systems**, which will not work without calibrated loss sensor settings. The Bushel Plus SmartPan System™ helps you collect and calculate accurate combine losses in just minutes. Our magnetic drop pan easily attaches to any combine and drops safely and remotely using a remote control or mobile app. The Air Separator quickly cleans samples, and the SmartDrop™ App measures results using innovative and intuitive loss analysis. With the Bushel Plus SmartPan System™, you can take your first, major step in controlling combine losses.

The MiniCombine™

is an all-in-one, battery-powered tool that lets you quickly collect a crop sample to test for moisture before harvesting. These samples provide accurate results without wasting time and fuel on bringing a combine, header and truck to the field. Interchangeable concaves allow you to easily collect samples of multiple crops, including wheat, barley, canola, sorghum, oats and peas.

4440 SPRAYER FILTERS

A-HD7M2CQ 7" Quad CabCAM^{HD}™ Touch Screen Camera System

Four times the HD views!

(2) HD Weatherproof Color Cameras

- Infrared Illuminators allow up to 32 feet of night visibility
- Image mirroring capability
- Designed to handle off-road conditions
- Audio capability

7" HD Color Touch Screen Monitor

- Quad Display
- 4 Camera capability
- Audio speaker
- Remote control
- 24 Pin wire harness

Accessories

- Ball Swivel Mounting Bracket with Mounting Pad
- Stationary Mounting Bracket with Thumb Screws
- Sunshield
- Hard Wire Power Adapter
- (2) 20' Weatherproof Video Cables
- Camera Trigger Wire Harness

? Trigger Wire Harness

A trigger wire harness automatically changes your camera view by wiring to a power signal that exists in your machine. Compatible with HD Quad monitors.

A-WL56M2C Analog WiRELESS CabCAM[™] Camera Observation System

200 yard barrier-free transmission range!

(2) Weatherproof Analog Color Cameras

- (1) channel 3 camera, (1) channel 4 camera
- Infrared Illuminators allow up to 32 feet of night visibility
- Image mirroring capability
- Designed to handle off-road conditions
- Audio capability
- Cameras require 12V power source or 24V w/A-AD520 reducer

7" Color Analog Monitor

- 4 Camera capability
- Audio speaker
- 6 Pin wire harness
- 2.4GHz analog WiRELESS receiver

Accessories

- Ball Swivel Mounting Bracket with Mounting Pad
- Stationary Mounting Bracket with Thumb Screws
- A/V Input Cable
- Sunshield
- Automotive Power Adapter
- A/C Power Adapter
- (3) Hard Wire Adapters
- Remote Antenna w/9.75 ft Cord

Download the CabCAM™ app on Google Play or the Apple App Store and use your phone or tablet with CabCAM™ HD WiFi cameras.

A-WFC697 HD Wifi 110° Color Camera

- For use with the CabCAM™ App on compatible phones and tablets
- Infrared illuminators allow up to 32' of night visibility
- 196' (60M) transmission range when connected to one device
- Can be connected to up to 4 devices at once, but reduces transmission range significantly (32', 10M)
- Lithium-ion battery, rechargeable
- Includes AC adapter and USB charging cables (3hr/8hr recharge time)
- Battery lasts up to 12 hours, will consume charge quicker when infrared illuminators are activated
- Strong magnetic base
- Weatherproof and constructed to withstand off-road conditions
- Audio capabilities

A-HD10M2CQ 10" Quad CabCAM^{HD} Touch Screen Camera System

Four times the HD views!

(2) HD Weatherproof Color Cameras

- Infrared illuminators allow up to 32 feet of night visibility
- Image mirroring capability
- Designed to handle off-road conditions
- Audio capability

10" HD Color Touch Screen Monitor

- Quad Display
- 4 Camera capability
- Audio speaker
- Remote control
- 24 Pin wire harness

Accessories

- Ball Swivel Mounting Bracket with Mounting Pad
- Stationary Mounting Bracket with Thumb Screws
- Sunshield
- Hard Wire Power Adapter
- (2) 20' Weatherproof Video Cables
- Camera Trigger Wire Harness

Quad Display

The Quad CabCAM™ displays offer multiple viewing options. You can choose from full screen single cam and six different split screen configurations
