LEADING THE WAY IN A THRIVING AGRICULTURAL COMMUNITY

WE ARE SASKATCHEWAN'S AG DEALER

Young's Equipment is one of Saskatchewan's preeminent agricultural equipment dealerships, offering an unsurpassed selection of farm machinery, agricultural implements, replacement parts, exceptional maintenance and emergency repair service, and virtually everything else that today's modern farm requires. And with nine locations located throughout Saskatchewan, farms and agri-businesses in the province are well served. With its rich history, there's no question that **Young's Equipment** has played an important role in both the prosperity of individual farms and the province as a whole.

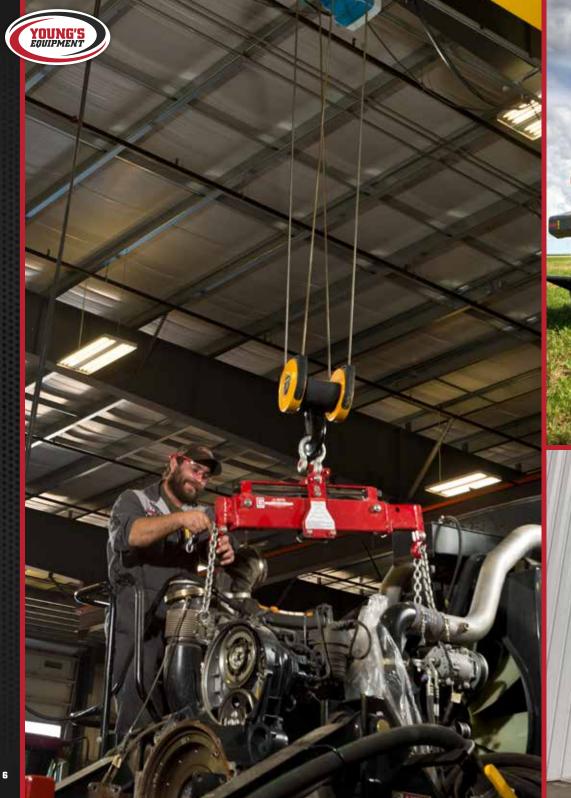

WHAT'S IN STORE?

The inventory at **Young's Equipment** is second to none – offering equipment from many of the top farm equipment manufacturers in North America. Some of the lines include Case IH tractors, combines, sprayers, and haying equipment, seeding equipment from Bourgault and Seed Hawk/Väderstad, and many other short lines, just to name a few. In addition, Young's carries a large selection of used equipment of all colours. So, whether it's on-ground equipment for immediate use or a pre-order for the upcoming season, if you're looking for a particular item for your farm, you'll find it at Young's. For a more comprehensive list of suppliers, or to search current inventory, please check our website.

TRADESHOWS

Young's Equipment is proud to showcase their equipment, products, services, and employees at various tradeshows throughout the year, including Canadian Western Agribition and Canada's Farm Progress Show. Canadian Western Agribition is the premier beef show in North America, and the largest livestock show in Canada. Anchored by beef cattle, Agribition also features other livestock, including horses, bison, sheep and goats, in addition to an extensive agribusiness trade show and the annual Grain Expo. The Young family is proud to have been involved in Agribition since its inception over 40 years ago. Canada's Farm Progress Show is a leading venue for showcasing agricultural innovation and advancements. Attracting worldclass manufacturers, exhibitors and speakers, Farm Progress Show connects them with over 35,000 visitors, from more than 50 countries, to drive innovation, education, collaboration, and growth in the agricultural industry.

LOCATIONS

With nine locations across Saskatchewan, you'll be sure to find a **Young's Equipment** dealership near you. Access to the entire inventory, whether parts or equipment, is available through any location - in addition to technicians on the road who enable Young's to increase their service capacity in any location based on seasonal demands. Dealerships are located in:

- Assiniboia
- Chamberlain
- Davidson
- Moose Jaw
- Raymore
- Regina
- Watrous
- Weyburn
- Windthorst

For more information on each of these locations, see their profiles in this brochure.

MISSION, VALUES AND PRINCIPLES

The values outlined below aren't only on paper—we at Young's Equipment Inc. believe in every word.

Thank you for choosing **Young's** as your business partner—we look forward to a long and mutually beneficial relationship.

To help Saskatchewan agri-businesses feed the world by maximizing accuracy, quality, yield, and up-time through the provision of exceptional service and outstanding products.

Leading the way in a thriving agricultural community.

- We understand the pressures of the agricultural industry and only through hard work, flexibility, mutual respect, teamwork, and dedication can we provide customers with the support they require.
- Honesty, humility, fairness, and ethics are the foundation of the trust that is fundamental to the relationships we have with customers, employees, and suppliers.
- **COMMITMENT:** We do what we say we're going to do, reliably and consistently.
- P: As a family-owned business, we know there is no stronger or more important part of our business than the partnerships we have developed, and continue to nurture, with customers, suppliers, and the communities where we do business.
- The We constantly strive to improve our services, products, people, and organization.
- FUN: We believe laughter, joy, and passion are vital to our personal well-being and business success.

- Young's Equipment recognizes and appreciates that doing business with you, our valued customer, is a privilege, not a right.
- Young's Equipment's employees will be professional, reliable, credible, and friendly, communicating promptly and honestly, providing a high-quality experience which meets, or exceeds, your expectations in every interaction with **Young's Equipment**.
- We will endeavour to understand your business and strive to get you back to work as soon as possible whenever challenges arise. We will take ownership of your business challenges until they are resolved.
- At Young's we value all feedback, and when issues arise we view them, and your feedback, as opportunities to learn and improve, increasing the quality of our products and services.

STRATEGIC INTENT STATEMENT

Our focus and commitment is to deliver innovative solutions to value-driven, partnership-oriented agricultural customers in Saskatchewan, through the industry's most knowledgeable, responsive and accountable employees.

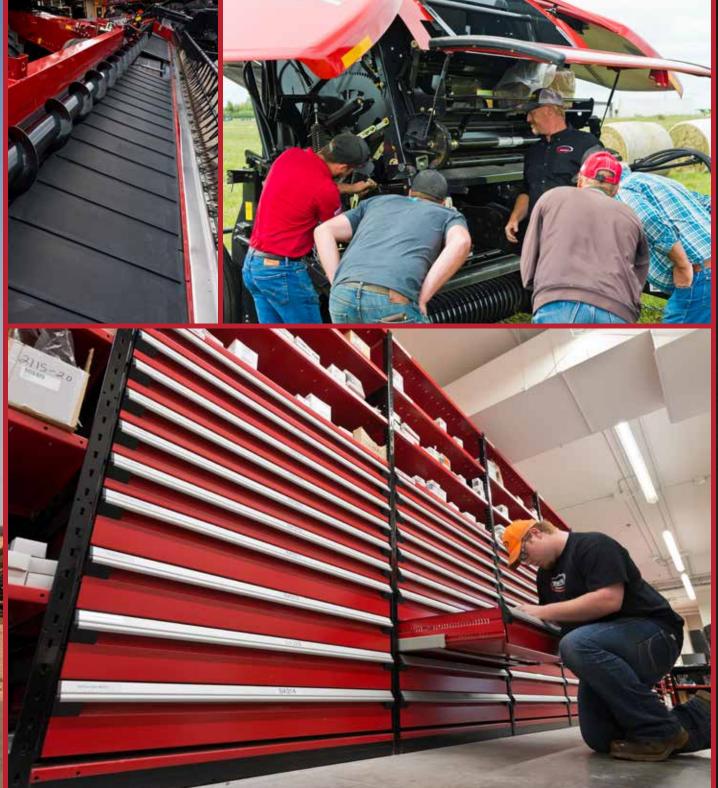

A LITTLE HISTORY

The Young family's history in the province's agricultural industry begins with patriarch Lloyd Young. As a young man, Lloyd started out with Massey Harris/Ferguson and moved on to become a Massey dealer in Weyburn. After 10 years running that franchise, Lloyd and his brother Ray bought the Case dealership in Regina, and called their new business Farmland Sales and Service. The brothers then expanded and became the distributors of the McKee Stack'N'Mover implement for Saskatchewan and Manitoba in 1973.

That same year, Lloyd's son Tim started working for Case in various positions while he attended the University of Regina. Eventually, Tim and his wife moved to Yorkton where he became Sales Manager and then Store Manager of the Case IH dealership. Opportunity came knocking once again in 1988 when the Case IH dealership in Regina was available to purchase. Tim's passion and enthusiasm also helped convince his father and uncle to become involved in the business, and the rest, as they say, is history.

Going forward with the family legacy, Tim's son, Sean, started full-time with the company in 2010. Sean then moved into the role of Branch Manager in Weyburn in 2012 and Assistant General Manager in 2014. Also representing the third generation is Sean's brother, Patrick, who joined the family business in 2015, and is currently the Service Manager in Moose Jaw. In addition, it appears a fourth generation may be ready to carry on with the family tradition—Sean's sons, Hunter Lloyd (his name an homage to his great-grandfather), and Theodore Alexius, may be involved in the business in a few years.

PARTS AND PARCEL

To ensure that your parts get to you when you need them, *Young's* runs two Priority Parts delivery vehicles, moving parts across their nine locations, minimizing delays and maximizing up-time. And during the peak seeding, spraying, and harvest seasons, the delivery service runs seven days a week. This service gives *Young's* customers unprecedented access to the complete parts inventory at all times.

NOT AFRAID OF COMMITMENT

Often talked about, but not always delivered, are a company's commitment to its employees. At Young's it's always been about having great staff. That's why employee recognition and a commitment to training is how this company walks their talk. Young's is very proud of its employment record, with an average employee tenure of 10 years, including 4 original staff members and over 40 employees with at least 15 years experience! And the company's thorough training programs make it easier for everyone to do their jobs while at the same time increasing their own individual career opportunities.

DEALERSHIP PROFILES

The following is a list with some important information about the various branches and service locations that are all part of *Young's Equipment*.

ASSINIBOIA

Walk in the front door to a welcoming atmosphere, a spotless showroom, extremely helpful staff and you've arrived at our Assiniboia location.

A new 10,000 square-foot shop and 3,000 square feet of office and storage space was added in 2014. So whether it's more horsepower to get you going in the spring or a bigger combine to help you finish in the fall, **Young's Equipment** in Assiniboia is committed to getting you into the right piece of equipment at the right price.

Year opened: 2003

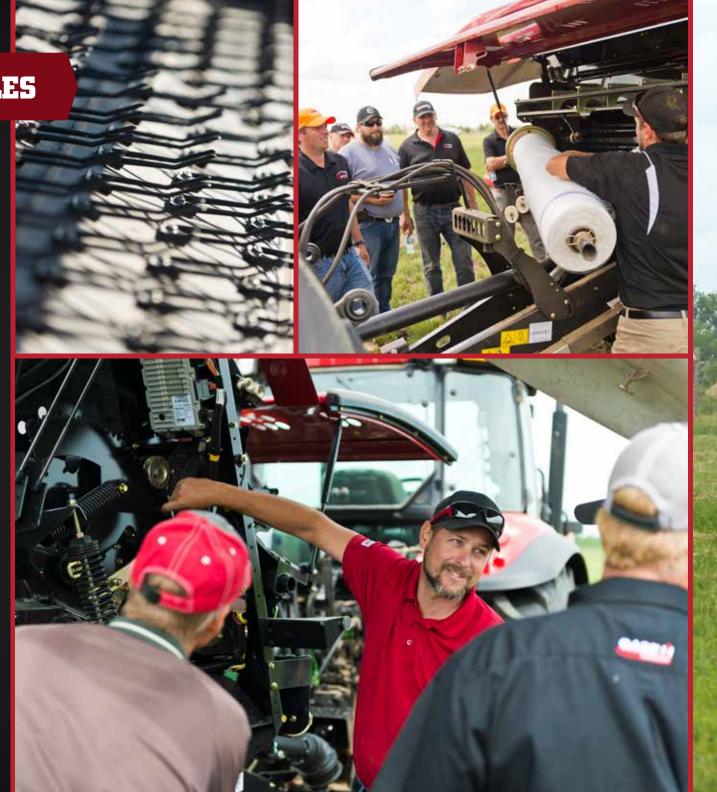

Location: Highway 13 West, Assiniboia

Branch Manager: Doug Graham

Service Manager: Joel Rasmussen

Parts Manager: Chad Rogers

Sales: Raymond Martin, Brian Wegner

The Parts and Service departments at Chamberlain assist farming operations in the immediate area and directly support the Davidson, Moose Jaw, and Regina locations. The branch's added capacity represents **Young's Equipment's** overall commitment to the town of Chamberlain and vicinity.

Year opened: 2014

Location: Highway 11 North,

Chamberlain

Service Manager: Todd Thauberger

Parts Manager: Cody Kohler

DAVIDSON

Young's Equipment in Davidson boasts a brand new building which was completed in June 2015. The state-of-the-art facility features an oil management system, an overhead crane, board and training rooms, and a 50-foot overhead door for bringing in large equipment.

Year opened: 2012

Location: 100-2nd Street South, Davidson

Branch Manager: Kelly Degelman

Service Manager: Cory Zastrizny

Parts Manager: Michele Nelson

Sales: Cliff Cross, Kelly Dietz

MOOSE JAW

Representing the company's first venture into the multi-store dealership model, *Young's Equipment* in Moose Jaw knows what it takes to help you succeed. Just as Case IH continues to lead the industry with high-quality, dependable equipment, the Moose Jaw location provides top-quality, reliable service to all of its customers. In addition, a new *Young's Equipment* facility on the outskirts of Highway 1 West is in the planning and pre-construction stages.

Year opened: 2000

Location: Highway 1 East, just outside of Moose Jaw

Branch Manager: Dale Scott

Service Manager: Patrick Young

Parts Manager: Kai Laudien

Sales: Jeremy Ebbett,

Gary Johnson

RAYMORE

The Raymore location features an 11,000 square foot shop addition—nearly doubling the size of the original Parts department.

Completed in 2015, the expansion only helps serve *Young's'* Raymore customers even more effectively.

Year opened: 2012

Location: Highway 6 South,

Raymore

Branch Manager: Dale Mantyka

Service Manager: Derek Purdue

Parts Manager: Chad Carroll

Sales: Chris Frisko, Curtis Gerencser

The one that started it all. Young's **Equipment's** first location is still situated on the original dealership site, though the new building erected in 2001 has allowed Young's the capacity to grow to meet the demands of a changing agricultural industry. The Service Department is fully-equipped to handle anything you can throw at it, with 34,680 square-feet of shop space (including an 11,500 squarefoot expansion), as well as a coverall building providing almost 20,000 square-feet of space for storing customer equipment or as extra shop space for setting up larger equipment.

Year opened: 1988

Location: Highway 1 East, Regina

Branch Manager: Lonnie Jones

Service Manager: Kevin Gamracy

Parts Manager: Kyle Weber

Sales: Christian Mounts, Jeff Pugh, Scott Wilson, Brad Zimmer

WATROUS

Young's Equipment is committed to Watrous and its customers and proudly offers new Bourgault product and a full selection of used equipment with access to the entire used inventory from all of Young's' locations.

Year opened: 2013

Location: 704-1st Avenue East,

Watrous

Branch Manager: Keith Engele

Sales: Darcy Beeler

WEYBURN

Occupying 14 acres of property, the Weyburn branch boasts a 41,000 square foot facility, completed in 2012. Since taking over in Weyburn, the company has seen tremendous growth, doubling the original staff group to accommodate a burgeoning agricultural region.

Year opened: 2006

Location: Highway 39 East,

Weyburn

Branch Manager: Michael

Hoffmann

Service Manager: Paul Mansfield

Parts Manager: Roger Hill

Sales: Morgan Kelln, Neil Neufeld

WINDTHORST

In addition to its inventory,

Young's Equipment in

Windthorst boasts a large service shop—fully stocked with all the latest specialty tools needed to keep your equipment running at peak performance and high efficiency. The company's mechanics regularly participate in training courses for every type of equipment that's sold—ensuring they can diagnose and then fix any equipment problems you might be having.

Year opened: 2005

Location: 105 Angus Street,

Windthorst

Branch Manager: Niven Bachert

Service Manager: Kurt Corscadden

Parts Manager: Kelly Pusch

Sales: Dean Amy

CORPORATE

The Corporate division of **Young's Equipment** supports and represents all of its locations, allowing front-line employees to devote 100 per cent of their attention to customer needs. By consolidating many of the various business processes under one Corporate banner, Young's can stay better focused and committed to customers and employees alike.

General Manager and Owner: Tim Young

Assistant General Manager and Owner: Sean Young

CFO: Alan Hajewich

Financial Officer: Nevin Dube

Corporate Service Manager: Brent Bazin

Corporate Sales Manager: Shane Townsend Corporate Parts Manager: Doug Pascoe Human Resources Manager: Kalyn Webster Customer & Employee Relations: Kirby Engele

EQUIPMENT MANUFACTURERS

ATTACHMENTS/PARTS & MORE

A HARDWORKING, VERSATILE MACHINE Case IH Maxxum® series tractors combine

efficient power with operator convenience. Powered by FPT engines, these multipurpose workhorse tractors deliver increased productivity, performance and fuel efficiency to handle the multiple tasks of livestock and row crop operations, specialty crop production or roadside mowing.

CUSTOMIZE YOUR MAXXUM TRACTOR TO MEET YOUR NEEDS

Maxxum series tractors are available with three transmissions - ActiveDrive 4 semi-powershift, ActiveDrive 8 dual-clutch transmission, and CVXDrive continuously variable transmission. Whether you prefer a top-of-the-line, superior operator environment or the basic comforts. Maxxum series tractors let you customize your experience.

CAPACITY WITHOUT COMPLEXITY.

Designed for the toughest crop types and conditions, the Case IH RB565 baler provides superior bale shape and density. This round baler is as smooth in function as it is in form. Behind the curvy exterior lies a machine that is more rugged than ever, and provides thorough windrow feeding from the pickup into the bale chamber. Combine that with a feeding system that has 20 percent more capacity plus a the crop and bale fields faster than ever.

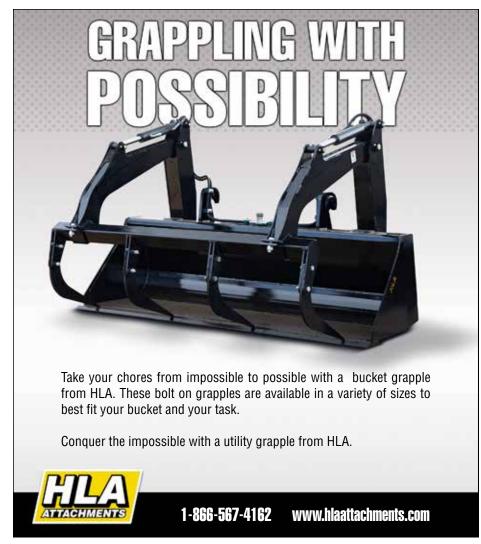

TRACTOR & BALER AUTOMATION

This system controls the tractor stop, bale wrap and bale eject functions without any operator input required. Paired with a Puma® or Maxxum tractor, take advantage of ISOBUS Class 3 controls to automatically stop the tractor when the target bale size is reached.

After that, net wrap is automatically applied and, when the wrap cycle is complete, the baler tailgate raises and lowers automatically to eject each wrapped bale. Once the completed bale is ejected, the operator can simply move the tractor shuttle lever to forward position and go.

BALE WET OR DRY CROPS

From wet silage to dry hay and stalks, winning combination of rolls and belts to move new Case IH RB565 Premium HD rolls baler gives you the flexibility to bale m crops. It builds on the robust design, lar platform, and improved bale-rejection syst of the RB565 family in addition to a high torque load on the clutch cutout, a larger m gearbox with heavier output shaft and a lar roll drive chain. In short production windo you'll have the power to bale more - ever higher moisture levels.

MAGNAPOWER. ALWAYS READY.

For farm equipment, you need batteries that can handle extreme conditions. Case IH MagnaPower batteries are built to take a pounding. Flame treated for improved strength, and four to six pounds heavier than the competition, these batteries are specifically designed to withstand the vibrations and jolts that can knock the life out of other brands. With hybridalloy plates, they last longer than automotive batteries, which saves you time and money. For maximum power under punishing in-the-field conditions, use Case IH MagnaPower batteries.

Precision seeding, powerful crops.

For more than twenty-five years, the innovative Seed Hawk drill has been designed and inspired by precision agronomy. Whether an operation practices zero-till or min-till, the Seed Hawk seeding system delivers exceptional seed and fertilizer placement. The result is quick, uniform crop emergence, better quality and higher yield for a better return on investment on your farm.

Väderstad continues to change the face of agriculture by maximizing the potential of the plant with ground-breaking innovations in seed-to-fertilizer placement, Sectional Control Technology, accurate metering, and superior functionality.

Sectional Control Technology

Sectional control works in conjunction with onboard GPS systems to eliminate overlap, save on input costs, and reduce ground disturbance of already seeded areas.

The system controls the meters on your Seed Hawk air cart and the openers on your Seed Hawk toolbar to instantly stop roller rotation and product flow when encountering previously seeded ground. It also lifts the openers so you do not disturb the precision seed and fertilizer placement already completed.

Seed Hawk Openers

The opener assemblies follow the ground independently by pivoting at the frame. By controlling each row individually, each seed is granted the same great conditions for growth. A consistent contour following ability is crucial in no-till operations where variable field conditions are present.

Fenix III Metering

Farming's most advanced metering technology is engineered for exceptionally precise seeding, reliable performance and easy maintenance. The motor, rollers, housing, inlets and outlets work together flawlessly ensuring consistent product flow – handling products like inoculants, micronutrients and problematic seeds with ease.

Variable Rates

The amount of fertilizer and seed required to achieve desired yield will vary across the field and, most times, over the width of the toolbar. Seed Hawk's iCon system is compatible with industry leading prescription mapping to dial in the exact amount of product desired, reducing the amount of inputs used. Each 10 feet of toolbar has its own seed and fertilizer meter to ensure greater accuracy in variable terrains.

iCon Wireless control

The iPad-based iCon wireless control system delivers complete and easy wireless control of your Seed Hawk air cart and toolbar, even when you are not in the cab. The iCon Wireless Control system provides you with more detailed real-time information, more automation, more customizable data, and optimized prescription mapping.

The Mid Row Bander® System allows producers to apply all of the nitrogen and sulfur requirements with the coulter opener and employ a low disturbance opener for seed and starter fertilizer. The packer is positioned directly over the seedrow, sealing the valuable moisture with the seed. Less disturbance also preserves last season's standing stubble for wind protection.

The MRB® coulter places the nitroger and sulfur fertilizer with minimal soil disturbance.

narrow seed opener

In dry conditions. on-row packing moisture with the seed

LOOKUPANDLIVE

If you hit a power line and your vehicle started on fire, would you know what to do? Here are the steps to stay safe.

Make sure **no wires** are in your way.

Stand in doorway or on bottom step, cross arms, put feet together.

Jump as far as possible, land with feet together.

Do not touch your vehicle.

Keep arms crossed, feet together, and hop at least 10 metres to safety.

Louisiana Grills is a winner of an EY Entrepreneur Of The Year 2017 Awa

FEEDBACK

Young's Equipment is always interested in hearing from its customers, so if you have anything you'd like to share or comment on, please be sure to contact the company through one of its locations, or through the Corporate team.
